Subject: Re: LOBO Training

Hi Robert,

The LOBO equipment has been a great addition to aiding completion of tasks on our aircraft. One task in particular, can only be worked from the LOBO platform and has saved us from cancelling flights on our A380 fleet.

It was an engine modification on the top, which is difficult to access due to the curvature of the engine.

The Engineers have reported that it is simple to build, use and is very stable.

Hope this is enough feedback

Many Thanks,

Best Regards,

M***** O*****
